AMERCO AND CONSOLIDATED ENTITIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

AMERCO, a Nevada corporation ("AMERCO"), has a first fiscal quarter that ends on the 30th of June for each year that is referenced. Our insurance company subsidiaries have a first quarter that ends on the 31st of March for each year that is referenced. They have been consolidated on that basis. Our insurance companies' financial reporting processes conform to calendar year reporting as required by state insurance departments. Management believes that consolidating their calendar year into our fiscal year financial statements does not materially affect the presentation of financial position or results of operations. We disclose any material events, if any, occurring during the intervening period. Consequently, all references to our insurance subsidiaries' years 2017 and 2016 correspond to fiscal 2018 and 2017 for AMERCO.

Accounts denominated in non-U.S. currencies have been translated into U.S. dollars. Certain amounts reported in previous years have been reclassified to conform to the current presentation.

The condensed consolidated balance sheet as of June 30, 2017 and the related condensed consolidated statements of operations, comprehensive income (loss) and cash flows for the first quarter of fiscal 2018 and 2017 are unaudited.

In our opinion, all adjustments necessary for the fair presentation of such condensed consolidated financial statements have been included. Such adjustments consist only of normal recurring items. Interim results are not necessarily indicative of results for a full year. The information in this Quarterly Report on Form 10-Q ("Quarterly Report") should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2017.

Intercompany accounts and transactions have been eliminated.

Description of Legal Entities

AMERCO is the holding company for:

U-Haul International, Inc. ("U-Haul"),

Amerco Real Estate Company ("Real Estate"),

Repwest Insurance Company ("Repwest"), and

Oxford Life Insurance Company ("Oxford").

Unless the context otherwise requires, the terms "Company," "we," "us" or "our" refer to AMERCO and all of its legal subsidiaries.

Description of Operating Segments

AMERCO has three reportable segments. They are Moving and Storage, Property and Casualty Insurance and Life Insurance.

The Moving and Storage operating segment ("Moving and Storage") includes AMERCO, U-Haul, and Real Estate and the wholly-owned subsidiaries of U-Haul and Real Estate. Operations consist of the rental of trucks and trailers, sales of moving supplies, sales of towing accessories, sales of propane, and the rental of fixed and portable moving and storage units to the "do-it-yourself" mover and management of self-storage properties owned by others. Operations are conducted under the registered trade name U-Haul® throughout the United States and Canada.

AMERCO AND CONSOLIDATED ENTITIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Property and Casualty Insurance operating segment ("Property and Casualty Insurance") includes Repwest and its wholly-owned subsidiaries and ARCOA Risk Retention Group ("ARCOA"). Property and Casualty Insurance provides loss adjusting and claims handling for U-Haul® through regional offices in the United States and Canada. Property and Casualty Insurance also underwrites components of the Safemove®, Safetow®, Safemove Plus®, Safestor® and Safestor Mobile® protection packages to U-Haul customers. The business plan for Property and Casualty Insurance includes offering property and casualty products in other U-Haul - related programs. ARCOA is a group captive insured owned by us and our wholly-owned subsidiaries whose purpose is to provide insurance products related to our moving and storage business.

The Life Insurance operating segment ("Life Insurance") includes Oxford and its wholly-owned subsidiaries. Life Insurance provides life and health insurance products primarily to the senior market through the direct writing and reinsuring of life insurance, Medicare supplement and annuity policies.

2. Earnings per Share

Our earnings per share is calculated by dividing our earnings available to common stockholders by the weighted average common shares outstanding, basic and diluted.

The weighted average common shares outstanding exclude post-1992 shares of the employee stock ownership plan that have not been committed to be released. The unreleased shares, net of shares committed to be released, were 19,553 and 21,548 as of June 30, 2017 and June 30, 2016, respectively.

3. Investments

Expected maturities may differ from contractual maturities as borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

We deposit bonds with insurance regulatory authorities to meet statutory requirements. The adjusted cost of bonds on deposit with insurance regulatory authorities was \$28.1 million and \$16.8 million at June 30, 2017 and March 31, 2017, respectively.

The available-for-sale table s include gross unrealized losses that are not deemed to be other-than-temporarily impaired, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position.

We sold available-for-sale securities with a fair value of \$35.6 million during the first quarter of fiscal 2018. The gross realized net gains on these sales totaled \$ 1.6 million.

The unrealized losses of more than twelve months in the available-for-sale table s are considered temporary declines. We track each investment with an unrealized loss and evaluate them on an individual basis for other-than-temporary impairments including obtaining corroborating opinions from third party sources, performing trend analysis and reviewing management's future plans. Certain of these investments may have declines determined by management to be other-than-temporary and we recognize these write-downs, if any, through earnings. There were no write downs in the first quarter of fiscal 2018 or 2017.

The investment portfolio primarily consists of corporate securities and U.S. government securities. We believe we monitor our investments as appropriate. Our methodology of assessing other-than-temporary impairments is based on security-specific analysis as of the balance sheet date and considers various factors including the length of time to maturity, the extent to which the fair value has been less than the cost, the financial condition and the near-term prospects of the issuer, and whether the debtor is current on its contractually obligated interest and principal payments. Nothing has come to management's attention that would lead to the belief that each issuer would not have the ability to meet the remaining contractual obligations of the security, including payment at maturity. We have the ability and intent not to sell our fixed maturity and common stock investments for a period of time sufficient to allow us to recover our costs.

The portion of other-than-temporary impairment related to a credit loss is recognized in earnings. The significant inputs utilized in the evaluation of mortgage backed securities credit losses include ratings, delinquency rates, and prepayment activity. The significant inputs utilized in the evaluation of asset backed securities credit losses include the time frame for principal recovery and the subordination and value of the underlying collateral.

There were no credit losses recognized in earnings for which a portion of an other-than-temporary impairment was recognized in accumulated other comprehensive income (loss) for the first quarter of fiscal 2018.

Real Estate Backed Loans

Real Estate Loan

Amerco Real Estate Company and certain of its subsidiaries and U-Haul Company of Florida are borrowers under a Real Estate Loan. As of June 30, 2017, the outstanding balance on the Real Estate Loan was \$166.8 million. The Real Estate Loan requires monthly principal and interest payments, with the unpaid loan balance and accrued and unpaid interest due at maturity. The Real Estate Loan is secured by various properties owned by the borrowers. The final maturity of the term loan is April 20 23.

AMERCO AND CONSOLIDATED SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

The interest rate, per the provisions of the amended loan agreement, is the applicable London Inter-Bank Offer Rate ("LIBOR") plus the applicable margin. At June 30, 2017, the applicable LIBOR was 1.12 % and the applicable margin was 1.50 %, the sum of which was 2.62 %, which was applied to \$39.0 million of the Real Estate Loan. The rate of the remaining balance of \$127.8 million of the Real Estate Loan is hedged with an interest rate swap fixing the rate at 6.93% based on current margin. The interest rate swap expires in August 2018, after which date the remaining balance will incur interest at a rate of LIBOR plus a margin of 1.50%. The default provisions of the Real Estate Loan include non-payment of principal or interest and other standard reporting and change-in-control covenants. There are limited restrictions regarding our use of the funds.

Senior Mortgages

Various subsidiaries of Amerco Real Estate Company and U-Haul International, Inc. are borrowers under certain senior mortgages. These senior mortgage loan balances as of June 30, 2017 were in the aggregate amount of \$ 1,366.2 million and mature between 2022 and 2038. The senior mortgages require monthly principal and interest payments. The senior mortgages are secured by certain properties owned by the borrowers. The fixed interest rates, per the provisions of the senior mortgages, range between 3.72% and 5.50 %. Certain senior mortgages have an anticipated repayment date and a maturity date. If these senior mortgages are not repaid by the anticipated repayment date, the interest rate on these mortgages would increase from the current fixed rate. We are using the anticipated repayment date for our maturity schedule. Amerco Real Estate Company and U-Haul International, Inc. have provided limited guarantees of the senior mortgages. The default provisions of the senior mortgages include non-payment of principal or interest and other standard reporting and change-in-control covenants. There are limited restrictions regarding our use of the funds.

Working Capital Loans

Amerco Real Estate Company is a borrower under an asset backed working capital loan. The maximum amount that can be drawn at any one time is \$ 50.0 million. At June 30, 2017, the full \$50.0 million was available to be drawn. This loan is secured by certain properties owned by the borrower. This loan agreement provides for revolving loans, subject to the terms of the loan agreement. The final maturity of this loan is September 2018. This loan requires monthly interest payments with the unpaid loan balance and accrued and unpaid interest due at maturity. The interest rate is the applicable LIBOR plus a margin of 1.25%. AMERCO is the guarantor of this loan. The default provisions of the loan include non-payment of principal or interest and other standard reporting and change-in-control covenants.

Various subsidiaries of Amerco Real Estate Company and U-Haul International, Inc. are borrowers under an asset backed working capital loan. The maximum amount that can be drawn at any one time is \$85.0 million. At June 30, 2017, the outstanding balance was \$ 85.0 million. This loan is secured by certain properties owned by the borrowers. This loan agreement provides for term loans, subject to the terms of the loan agreement. The final maturity of the loan is November 2018. This loan requires monthly interest payments with the unpaid loan balance and accrued and unpaid interest due at maturity. The interest rate, per the provision of the loan agreement, is the applicable LIBOR plus the applicable margin. At June 30, 2017, the applicable LIBOR was 1.01 % and the margin was 1.50%, the sum of which was 2.51 %. AMERCO is the guarantor of this loan. The default provisions of the loan include non-payment of principal or interest and other standard reporting and change-in-control covenants.

Fleet Loans

Rental Truck Amortizing Loans

U-Haul International, Inc. and several of its subsidiaries are borrowers under amortizing term loans. The aggregate balance of the loans as of June 30, 2017 was \$ 341.3 million with the final maturities between July 2017 and June 2024.

AMERCO AND CONSOLIDATED SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

The Amortizing Loans require monthly principal and interest payments, with the unpaid loan balance and accrued and unpaid interest due at maturity. These loans were used to purchase new trucks. The interest rates, per the provision of the Loan Agreements, are the applicable LIBOR plus the applicable margins. At June 30, 2017, the applicable LIBOR was between 1.05 % and 1.16 % and applicable margins were between 1.72% and 2.50%. The interest rates are hedged with interest rate swaps fixing the rates between 2.82% and 4.76% based on current margins. Additionally, \$ 276.0 million of these loans are carried at fixed rates ranging between 1.95% and 3.94%.

AMERCO and, in some cases, U-Haul International, Inc. are guarantors of these loans. The default provisions of these loans include non-payment of principal or interest and other standard reporting and change-in-control covenants.

Rental Truck Securitizations

2010 U-Haul S Fleet and its subsidiaries (collectively, "2010 USF") issued a \$155.0 million asset-backed note ("2010 Box Truck Note"). 2010 USF is a bankruptcy-remote special purpose entity wholly-owned by U-Haul International, Inc. The net proceeds from the securitized transaction were used to finance new box truck purchases. U.S. Bank, NA acts as the trustee for this securitization.

The 2010 Box Truck Note has a fixed interest rate of 4.90% with an expected final maturity of October 2017. At June 30, 2017, the outstanding balance was \$ 50.1 million. The note is secured by the box trucks purchased and the corresponding operating cash flows associated with their operation.

The 2010 Box Truck Note is subject to certain covenants with respect to liens, additional indebtedness of the special purpose entity, the disposition of assets and other customary covenants of bankruptcy-remote special purpose entities. The default provisions of this note include non-payment of principal or interest and other standard reporting and change-in-control covenants.

Rental Truck Revolvers

Various subsidiaries of U-Haul International, Inc. entered into a revolving fleet loan for \$ 150 million, which can be increased to a maximum of \$225 million. This loan matures in September 2018. Other Obligations

In February 2011, AMERCO and U. S. Bank, NA (the "Trustee") entered into the U-Haul Investors Club[®] Indenture. AMERCO and the Trustee entered into this indenture to provide for the issuance of notes by us directly to investors over our proprietary website, uhaulinvestorsclub.com ("U-Notes[®]"). The U-Notes[®] are secured by various types of collateral including, but not limited to, rental equipment and real estate. U-Notes[®] are issued in smaller series that vary as to principal amount, interest rate and maturity. U-Notes[®] are obligations of the Company and secured by the associated collateral; they are not guaranteed by any of the Company's affiliates or subsidiaries.

At June 30, 2017, the aggregate outstanding principal balance of the U-Notes[®] issued was \$74.4 million of which \$ 4.2 million is held by our insurance subsidiaries and eliminated in consolidation. Interest rates range between 2.75% and 8.00% and maturity dates range between 2017 and 2047.

Oxford is a member of the Federal Home Loan Bank ("FHLB") and, as such, the FHLB has made deposits with Oxford. As of March 31, 2017, one deposit balance was \$45.0 million, for which Oxford pays a fixed interest rate of 1.00%, due on the maturity date of September 29, 2017. As of March 31, 2017, the other deposit amount was \$15.0 million with a maturity of March 30, 2020 at an interest rate of 1.75%. As of March 31, 2017, available-for-sale investments held with the FHLB totaled \$129.0 million, of which \$68.6 million was pledged as collateral to secure the outstanding deposits. The balances of these deposits are included within Liabilities from investment contracts on the consolidated balance sheet.

5 . Derivatives

We manage exposure to changes in market interest rates. Our use of derivative instruments is limited to highly effective interest rate swaps to hedge the risk of changes in cash flows (future interest payments) attributable to changes in LIBOR swap rates, the designated benchmark interest rate being hedged on certain of our LIBOR indexed variable rate debt and a variable rate operating lease . The interest rate swaps effectively fix our interest payments on certain LIBOR indexed variable rate debt. We monitor our positions and the credit ratings of our counterparties and do not currently anticipate non-performance by the counterparties. Interest rate swap agreements are not entered into for trading purposes. Following is a summary of our interest rate swap agreements at June 30, 2017:

Gains or losses recognized in income on derivatives are recorded as interest expense in the statements of operations. During the first quarter of fiscal 2018, we recognized an increase in the fair value of our cash flow hedges of \$1.0 million, net of taxes. Embedded in this change was \$1.6 million of losses reclassified from accumulated other comprehensive income (loss) to interest expense during the first quarter of fiscal 2018. At June 30, 2017, we expect to reclassify \$3.4 million of net losses on interest rate contracts from accumulated other comprehensive income to earnings as interest expense over the next twelve months.

8 . Contingent Liabilities and Commitments

We lease a portion of our rental equipment and certain of our facilities under operating leases with terms that expire at various dates substantially through 2019. As of June 30, 2017, we have guaranteed \$16.5 million of residual values for these rental equipment assets at the end of the respective lease terms. Certain leases contain renewal and fair market value purchase options as well as mileage and other restrictions. At the expiration of the lease, we have the option to renew the lease, purchase the asset for fair market value, or sell the asset to a third party on behalf of the lessor. We have been leasing equipment since 1987 and have experienced no material losses relating to these types of residual value guarantees.

9 . Contingencies

Environmental

Compliance with environmental requirements of federal, state and local governments may significantly affect Real Estate's business operations. Among other things, these requirements regulate the discharge of materials into the air, land and water and govern the use and disposal of hazardous substances. Real Estate is aware of issues regarding hazardous substances on some of its properties. Real Estate regularly makes capital and operating expenditures to stay in compliance with environmental laws and has put in place a remedial plan at each site where it believes such a plan is necessary. Since 1988, Real Estate has managed a testing and removal program for underground storage tanks.

Based upon the information currently available to Real Estate, compliance with the environmental laws and its share of the costs of investigation and cleanup of known hazardous waste sites are not expected to result in a material adverse effect on AMERCO's financial position or results of operations.

Other

We are named as a defendant in various other litigation and claims arising out of the normal course of business. In management's opinion, none of these other matters will have a material effect on our financial position and results of operations.

10 . Related Party Transactions

As set forth in the Company's Audit Committee Charter and consistent with N ASDAQ Listing Rules, our Audit Committee (the "Audit Committee") reviews and maintains oversight over related party transactions which are required to be disclosed under the Securities and Exchange Commission ("SEC") rules and regulations and in accordance with generally accepted accounting principles ("GAAP") . Accordingly, all such related party transactions are submitted to the Audit Committee for ongoing review and oversight. Our internal processes are designed to ensure that our legal and finance departments identify and monitor potential related party transactions that may require disclosure and Audit Committee oversight.

AMERCO has engaged in related party transactions and has continuing related party interests with certain major stockholders, directors and officers of the consolidated group as disclosed below. Management believes that the transactions described below and in the related notes were completed on terms substantially equivalent to those that would prevail in arm's-length transactions.

SAC Holding Corporation and SAC Holding II Corporation (collectively "SAC Holdings") were established in order to acquire and develop self-storage properties. These properties are being managed by us pursuant to management agreements. In the past, we sold real estate and various self-storage properties to SAC Holdings, and such sales provided significant cash flows to us .

During the first quarter of fiscal 2018 , a subsidiary of ours held a junior unsecured note from SAC Holdings. Substantially all of the equity interest of SAC Holdings is controlled by Blackwater Investments, Inc. ("Blackwater"). Blackwater is wholly-owned by Willow Grove Holdings LP , which is owned by Mark V. Shoen (a significant share holder), and various trusts associated with Edward J. Shoen (our Chairman of the Board, President and a significant shareholder) and Mark V. Shoen . We do not have an equity ownership interest in SAC Holdings. We received cash interest payments of \$ 1.1 million from SAC Holdings during the first quarter of both fiscal 2018 and 2017 . The largest aggregate amount of the note receivable outstanding during the first quarter of fiscal 2018 was \$48.1 million and the aggregate note receivable balance at June 30 , 2017 was \$ 47.8 million. In accordance with the terms of this note, SAC Holdings may prepay the note without penalty or premium at any time. We are currently negotiating to extend this note. The scheduled maturity of this note is 2017.

We currently manage the self-storage properties owned or leased by SAC Holdings, Mercury Partners, L.P. ("Mercury"), Four SAC Self-Storage Corporation ("4 SAC"), Five SAC Self-Storage Corporation ("5 SAC"), Galaxy Investments, L.P. ("Galaxy") and Private Mini Storage Realty, L.P. ("Private Mini") pursuant to a standard form of management agreement, under which we receive a management fee of between 4% and 10% of the gross receipts plus reimbursement for certain expenses. We received management fees, exclusive of reimbursed expenses, of \$ 10.0 million and \$8.7 million from the above mentioned entities during the first quarter of fiscal 2018 and 2017, respectively . This management fee is consistent with the fee received for other properties we previously managed for third parties. SAC Holdings, 4 SAC, 5 SAC, Galaxy and Private Mini are substantially controlled by Blackwater. Mark V. Shoen controls the general partner of Mercury. The limited partner interests of Mercury are indirectly owned by Mark V. Shoen, James P. Shoen (a significant shareholder) and a trust benefitting the children and grandchild of Edward J. Shoen .

We lease space for marketing company offices, vehicle repair shops and hitch installation centers from subsidiaries of SAC Holdings, 5 SAC and Galaxy. The terms of the leases are similar to the terms of leases for other properties owned by unrelated parties that are leased to us.

At June 30, 2017, subsidiaries of SAC Holdings, 4 SAC, 5 SAC, Galaxy and Private Mini acted as U-Haul independent dealers. The financial and other terms of the dealership contracts with the aforementioned companies and their subsidiaries are substantially identical to the terms of those with our other independent dealers whereby commissions are paid by us based upon equipment rental revenues.

These agreements and note with subsidiaries of SAC Holdings, 4 SAC, 5 SAC, Galaxy and Private Mini, excluding Dealer Agreements, provided revenues of \$ 7.4 million, expenses of \$ 0.7 million and cash flows of \$ 6.6 million during the first quarter of fiscal 2018. Revenues and commission expenses related to the Dealer Agreements were \$ 72.8 million and \$ 15.9 million, respectively during the first quarter of fiscal 2018.

Pursuant to the variable interest entity ("VIE") model under Accounting Standards Codification ("ASC") 810 – *Consolidation* ("ASC 810"), management determined that the junior note of SAC Holdings as well as the management agreements with SAC Holdings, Mercury, 4 SAC, 5 SAC, Galaxy, and Private Mini represents potential variable interests for us. Management evaluated whether it should be identified as the primary beneficiary of one or more of these VIEs using a two - step approach in which management (i) identified all other parties that hold interests in the VIEs, and (ii) determined if any variable interest holder has the power to direct the activities of the VIEs that most significantly impact their economic performance.

Management determined that they do not have a variable interest in the holding entities, SAC Holding II Corporation, Private Mini, Mercury, 4 SAC, 5 SAC, or Galaxy, based upon management agreements which are with the individual operating entities or through the issuance of junior debt; therefore, we are precluded from consolidating these entities.

We have junior debt with the holding entity SAC Holding Corporation which represents a variable interest in the entity. Though we have certain protective rights within this debt agreement, we have no present influence or control over this holding entity unless the protective rights become exercisable, which management considers unlikely based on their payment history. As a result, we have no basis under ASC 810 to consolidate this entity.

We do not have the power to direct the activities that most significantly impact the economic performance of the individual operating entities which have management agreements with U-Haul. There are no fees or penalties disclosed in the management agreement for termination of the agreement. Through control of the holding entities' assets, and its ability and history of making key decisions relating to the entity and its assets, Blackwater, and its owner, are the variable interest holder with the power to direct the activities that most significantly impact each of the individual holding entities and the individual operating entities' performance. As a result, we have no basis under ASC 810 to consolidate these entities.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

We have not provided financial or other support explicitly or implicitly during the quarter ended June 30, 2017 to any of these entities that it was not previously contractually required to provide. In addition, we currently have no plan to provide any financial support to any of these entities in the future. The carrying amount and classification of the assets and liabilities in our balance sheets that relate to our variable interests in the aforementioned entities are as follows, which approximate the maximum exposure to loss as a result of our involvement with these entities:

11. Consolidating Financial Information by Industry Segment

AMERCO's three reportable segments are:

- Moving and Storage, comprised of AMERCO, U-Haul, and Real Estate and the subsidiaries of U-Haul and Real Estate,
- Property and Casualty Insurance, comprised of Republic and its subsidiaries and ARCOA, and
- Life Insurance, comprised of Oxford and its subsidiaries.

Management tracks revenues separately, but does not report any separate measure of the profitability for rental vehicles, rentals of self-storage spaces and sales of products that are required to be classified as a separate operating segment and accordingly does not present these as separate reportable segments. Deferred income taxes are shown as liabilities on the condensed consolidating statements.

The information includes elimination entries necessary to consolidate AMERCO, the parent, with its subsidiaries.

Investments in subsidiaries are accounted for by the parent using the equity method of accounting.

1 4 . Fair Value Measurements

Fair values of cash equivalents approximate carrying value due to the short period of time to maturity. Fair values of short term investments, investments available-for-sale, long term investments, mortgage loans and notes on real estate, and interest rate swap contracts are based on quoted market prices, dealer quotes or discounted cash flows. Fair values of trade receivables approximate their recorded value.

AMERCO AND CONSOLIDATED SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)

Our financial instruments that are exposed to concentrations of credit risk consist primarily of temporary cash investments, trade receivables, reinsurance recoverables and notes receivable. Limited credit risk exists on trade receivables due to the diversity of our customer base and their dispersion across broad geographic markets. We place our temporary cash investments with financial institutions and limit the amount of credit exposure to any one financial institution.

We have mortgage receivables, which potentially expose us to credit risk. The portfolio of notes is principally collateralized by self-storage facilities and commercial properties. We have not experienced any material losses related to the notes from individual or groups of notes in any particular industry or geographic area. The estimated fair values were determined using the discounted cash flow method and using interest rates currently offered for similar loans to borrowers with similar credit ratings.

The carrying amount of long term debt and short term borrowings are estimated to approximate fair value as the actual interest rate is consistent with the rate estimated to be currently available for debt of similar term and remaining maturity.

Other investments including short term investments are substantially current or bear reasonable interest rates. As a result, the carrying values of these financial instruments approximate fair value.

Certain assets and liabilities are recorded at fair value on the condensed consolidated balance sheets and are measured and classified based upon a three tiered approach to valuation. ASC 820 - *Fair Value Measurements and Disclosure* ("ASC 820") requires that financial assets and liabilities recorded at fair value be classified and disclosed in one of the following three categories:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 – Quoted prices for identical or similar financial instruments in markets that are not considered to be active, or similar financial instruments for which all significant inputs are observable, either directly or indirectly, or inputs other than quoted prices that are observable, or inputs that are derived principally from or corroborated by observable market data through correlation or other means; and

Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and are unobservable. These reflect management's assumptions about the assumptions a market participant would use in pricing the asset or liability.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following tables represent the financial assets and liabilities on the condensed consolidated balance sheet as of June 30, 2017 and March 31, 2017 that are subject to ASC 820 and the valuation approach applied to each of these items.

15. Real Estate Agreements

In February 2017, Real Estate entered into an agreement with a qualified intermediary related to a potential 1031 Exchange. The qualified intermediary formed an LLC to facilitate the reverse exchange portion of the 1031 Exchange, which was determined to be a VIE. Real Estate was deemed to be the primary beneficiary of this VIE as it has the ability to direct the activities that most significantly impact its economic performance and has all of the risks and rewards of ownership. Accordingly, Real Estate consolidated this VIE. As of June 30, 2017, Real Estate had loaned \$60.5 million to the VIE for the purchase of the replacement properties. The sale of the relinquished property had not been completed as of this filing, and as such, the acquired properties remained in the possession of the VIE. At the earlier of the sale of the relinquished property or 180 days from the acquisition date of each replacement property, the sole membership interest in each property held within the VIE will be assigned to Real Estate in satisfaction of the outstanding loan, resulting in the property being wholly owned by Real Estate.

16 . Subsequent Events

Real Estate Agreement

On July 25, 2017, Real Estate further amended its Purchase and Sale Agreement with 23rd and 11th Associate, L.L.C., for the sale of a portion of Real Estate's real property and improvements thereon located in Manhattan, New York to change the closing date to September 2017, with the ability of either party to further extend the closing date to October 2017. Real Estate will maintain ownership of one building at the Manhattan location thus allowing U-Haul to serve the equipment rental needs of our customers in the area. Real Estate's book value of the property being sold is approximately \$5 million. The Company continues to intend to reinvest the proceeds into its self-storage holdings via a tax free exchange pursuant to Section 1031 of the Internal Revenue Code.

Financial Strength Rating

In August 2017, A.M. Best upgraded the financial strength rating (FSR) for Repwest Insurance Company to B++ from B+. The FSR outlook remains stable. In addition, A.M. Best upgraded the long-term issuer credit rating (LTICR) to bbb from bbb-. The LTICR outlook has been revised to positive from stable.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

General

We begin Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") with the overall strategy of AMERCO, followed by a description of, and strategy related to, our operating segments to give the reader an overview of the goals of our businesses and the direction in which our businesses and products are moving. We then discuss our critical accounting policies and estimates that we believe are important to understanding the assumptions and judgments incorporated in our reported financial results. Next, we discuss our results of operations for the first quarter of fiscal 2018, compared with the first quarter of fiscal 2017, which are followed by an analysis of liquidity changes in our balance sheets and cash flows, and a discussion of our financial commitments in the sections entitled Liquidity and Capital Resources - Summary and Disclosures about Contractual Obligations and Commercial Commitments and a discussion of off-balance sheet arrangements. We conclude this MD&A by discussing our current outlook for the remainder of fiscal 2018.

This MD&A should be read in conjunction with the other sections of this Quarterly Report, including the Notes to Condensed Consolidated Financial Statements. The various sections of this MD&A contain a number of forward-looking statements, as discussed under the caption, Cautionary Statements Regarding Forward-Looking Statements, all of which are based on our current expectations and could be affected by the uncertainties and risks described throughout this filing or in our most recent Annual Report on Form 10-K for the fiscal year ended March 31, 2017. Many of these risks and uncertainties are beyond our control and our actual results may differ materially from these forward-looking statements.

AMERCO, a Nevada corporation, has a first fiscal quarter that ends on the 30th of June for each year that is referenced. Our insurance company subsidiaries have a first quarter that ends on the 31st of March for each year that is referenced. They have been consolidated on that basis. Our insurance companies' financial reporting processes conform to calendar year reporting as required by state insurance departments. Management believes that consolidating their calendar year into our fiscal year financial statements does not materially affect the presentation of financial position or results of operations. We disclose any material events, if any, occurring during the intervening period. Consequently, all references to our insurance subsidiaries' years 2017 and 2016 correspond to fiscal 2018 and 2017 for AMERCO.

Overall Strategy

Our overall strategy is to maintain our leadership position in the North American "do-it-yourself" moving and storage industry. We accomplish this by providing a seamless and integrated supply chain to the "do-it-yourself" moving and storage market. As part of executing this strategy, we leverage the brand recognition of U-Haul with our full line of moving and self-storage related products and services and the convenience of our broad geographic presence.

Our primary focus is to provide our customers with a wide selection of moving rental equipment, convenient self-storage rental facilities, portable moving and storage units and related moving and self-storage products and services. We are able to expand our distribution and improve customer service by increasing the amount of moving equipment and storage rooms and portable moving and storage units available for rent, expanding the number of independent dealers in our network and expanding and taking advantage of our eMove[®] capabilities.

Property and Casualty Insurance is focused on providing and administering property and casualty insurance to U-Haul and its customers, its independent dealers and affiliates.

Life Insurance is focused on long term capital growth through direct writing and reinsuring of life insurance, Medicare supplement and annuity products in the senior marketplace.

Description of Operating Segments

AMERCO's three reportable segments are:

- Moving and Storage, comprised of AMERCO, U-Haul, and Real Estate and the wholly-owned subsidiaries of U-Haul and Real Estate,
- Property and Casualty Insurance, comprised of Repwest and its wholly-owned subsidiaries and ARCOA, and
- Life Insurance, comprised of Oxford and its wholly-owned subsidiaries.

Moving and Storage

Moving and Storage consists of the rental of trucks, trailers, portable moving and storage units, specialty rental items and self-storage spaces primarily to the household mover as well as sales of moving supplies, towing accessories and propane. Operations are conducted under the registered trade name U-Haul[®] throughout the United States and Canada.

With respect to our truck, trailer, specialty rental items and self-storage rental business, we are focused on expanding our dealer network, which provides added convenience for our customers and expanding the selection and availability of rental equipment to satisfy the needs of our customers.

U-Haul brand self-moving related products and services, such as boxes, pads and tape allow our customers to, among other things; protect their belongings from potential damage during the moving process. We are committed to providing a complete line of products selected with the “do-it-yourself” moving and storage customer in mind.

uhaul.com[®] is an online marketplace that connects consumers to our operations as well as independent Moving Help[®] service providers and thousands of independent Self-Storage Affiliates. Our network of customer rated affiliates and service providers furnish pack and load help, cleaning help, self-storage and similar services, all over the United States and Canada. Our goal is to further utilize our web-based technology platform to increase service to consumers and businesses in the moving and storage market.

Since 1945, U-Haul has incorporated sustainable practices into its everyday operations. We believe that our basic business premise of equipment sharing helps reduce greenhouse gas emissions and reduces the inventory of total large capacity vehicles. We continue to look for ways to reduce waste within our business and are dedicated to manufacturing reusable components and recyclable products. We believe that our commitment to sustainability, through our products and services and everyday operations, has helped us to reduce our impact on the environment.

Property and Casualty Insurance

Property and Casualty Insurance provides loss adjusting and claims handling for U-Haul through regional offices across the United States and Canada. Property and Casualty Insurance also underwrites components of the Safemove[®], Safetow[®] Safemove Plus[®], Safestor[®] and Safestor Mobile[®] protection packages to U-Haul[®] customers. We continue to focus on increasing the penetration of these products into the moving and storage market. The business plan for Property and Casualty Insurance includes offering property and casualty products in other U-Haul[®] related programs.

Life Insurance

Life Insurance provides life and health insurance products primarily to the senior market through the direct writing and reinsuring of life insurance, Medicare supplement and annuity policies.

Critical Accounting Policies and Estimates

Our financial statements have been prepared in accordance with GAAP in the United States. The methods, estimates and judgments we use in applying our accounting policies can have a significant impact on the results we report in our financial statements. Certain accounting policies require us to make difficult and subjective judgments and assumptions, often as a result of the need to estimate matters that are inherently uncertain.

Following is a detailed description of the accounting policies that we deem most critical to us and that require management's most difficult and subjective judgments. These estimates are based on historical experience, observance of trends in particular areas, information and valuations available from outside sources and on various other assumptions that are believed to be reasonable under the circumstances and which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual amounts may differ from these estimates under different assumptions and conditions; such differences may be material.

We also have other policies that we consider key accounting policies, such as revenue recognition; however, these policies do not meet the definition of critical accounting estimates, because they do not generally require us to make estimates or judgments that are difficult or subjective. The accounting policies that we deem most critical to us, and involve the most difficult, subjective or complex judgments include the following :

Principles of Consolidation

We apply Accounting Standards Codification ("ASC") 810 - *Consolidation* ("ASC 810") in our principles of consolidation. ASC 810 addresses arrangements where a company does not hold a majority of the voting or similar interests of a variable interest entity ("VIE"). A company is required to consolidate a VIE if it has determined it is the primary beneficiary. ASC 810 also addresses the policy when a company owns a majority of the voting or similar rights and exercises effective control.

As promulgated by ASC 810, a VIE is not self-supportive due to having one or both of the following conditions: (i) it has an insufficient amount of equity for it to finance its activities without receiving additional subordinated financial support or (ii) its owners do not hold the typical risks and rights of equity owners. This determination is made upon the creation of a variable interest and is re-assessed on an on-going basis should certain changes in the operations of a VIE, or its relationship with the primary beneficiary trigger a reconsideration under the provisions of ASC 810. After a triggering event occurs the facts and circumstances are utilized in determining whether or not a company is a VIE, which other company(ies) have a variable interest in the entity, and whether or not the company's interest is such that it is the primary beneficiary.

We will continue to monitor our relationships with the other entities regarding who is the primary beneficiary, which could change based on facts and circumstances of any reconsideration events.

Recoverability of Property, Plant and Equipment

Our property, plant and equipment is stated at cost. Interest expense incurred during the initial construction of buildings and rental equipment is considered part of cost. Depreciation is computed for financial reporting purposes using the straight-line or an accelerated method based on a declining balance formula over the following estimated useful lives: rental equipment 2-20 years and buildings and non-rental equipment 3-55 years. Routine maintenance costs are charged to operating expense as they are incurred. Gains and losses on dispositions of property, plant and equipment are netted against depreciation expense when realized. Equipment depreciation is recognized in amounts expected to result in the recovery of estimated residual values upon disposal, i.e., minimize gains or losses. In determining the depreciation rate, historical disposal experience, holding periods and trends in the market for vehicles are reviewed. As a result of the changes in IRS regulations regarding the capitalization of assets, beginning in the first quarter of fiscal 2017, the Company has changed its depreciation policy to raise the value threshold before certain assets are capitalized. This change in procedure results in the immediate recognition of reported operating costs with a lagging decrease in depreciation expense over the term that these assets would have been depreciated. Due to this change, we had additional operating expenses of \$ 6.3 million and \$4.6 million in the first quarter of fiscal 2018 and 2017, respectively. This change in procedure is expected to benefit the Company through the immediate recognition of tax deductible costs.

We regularly perform reviews to determine whether facts and circumstances exist which indicate that the carrying amount of assets, including estimates of residual value, may not be recoverable or that the useful life of assets are shorter or longer than originally estimated. Reductions in residual values (i.e., the price at which we ultimately expect to dispose of revenue earning equipment) or useful lives will result in an increase in depreciation expense over the life of the equipment. Reviews are performed based on vehicle class, generally subcategories of trucks and trailers. We assess the recoverability of our assets by comparing the projected undiscounted net cash flows associated with the related asset or group of assets over their estimated remaining lives against their respective carrying amounts. We consider factors such as current and expected future market price trends on used vehicles and the expected life of vehicles included in the fleet. Impairment, if any, is based on the excess of the carrying amount over the fair value of those assets. If asset residual values are determined to be recoverable, but the useful lives are shorter or longer than originally estimated, the net book value of the assets is depreciated over the newly determined remaining useful lives.

Management determined that additions to the fleet resulting from purchases should be depreciated on an accelerated method based upon a declining formula. Under the declining balances method (2.4 times declining balance), the book value of a rental truck is reduced approximately 16%, 13%, 11%, 9%, 8%, 7%, and 6% during years one through seven, respectively, and then reduced on a straight-line basis to a salvage value of 20 % by the end of year fifteen. Beginning in October 2012, rental equipment subject to this depreciation schedule will be depreciated to a salvage value of 15%. Comparatively, a standard straight-line approach would reduce the book value by approximately 5.7 % per year over the life of the

truck.

Although we intend to sell our used vehicles for prices approximating book value, the extent to which we realize a gain or loss on the sale of used vehicles is dependent upon various factors including but not limited to, the general state of the used vehicle market, the age and condition of the vehicle at the time of its disposal and the depreciation rates with respect to the vehicle. We typically sell our used vehicles at our sales centers throughout the United States and Canada, on our website at uhaul.com/trucksales or by phone at 1-866-404-0355. Additionally, we sell a large portion of our pickup and cargo van fleet at automobile dealer auctions.

Insurance Reserves

Liabilities for life insurance and certain annuity and health policies are established to meet the estimated future obligations of policies in force, and are based on mortality, morbidity and withdrawal assumptions from recognized actuarial tables which contain margins for adverse deviation. In addition, liabilities for health, disability and other policies include estimates of payments to be made on insurance claims for reported losses and estimates of losses incurred, but not yet reported ("IBNR"). Liabilities for annuity contracts consist of contract account balances that accrue to the benefit of the policyholders.

Insurance reserves for Property and Casualty Insurance and U-Haul take into account losses incurred based upon actuarial estimates and are management's best approximation of future payments. These estimates are based upon past claims experience and current claim trends as well as social and economic conditions such as changes in legal theories and inflation. These reserves consist of case reserves for reported losses and a provision for IBNR losses, both reduced by applicable reinsurance recoverables, resulting in a net liability.

Due to the nature of the underlying risks and high degree of uncertainty associated with the determination of the liability for future policy benefits and claims, the amounts to be ultimately paid to settle these liabilities cannot be precisely determined and may vary significantly from the estimated liability, especially for long-tailed casualty lines of business such as excess workers' compensation. As a result of the long-tailed nature of the excess workers' compensation policies written by Repwest during 1983 through 2001, it may take a number of years for claims to be fully reported and finally settled.

On a regular basis insurance reserve adequacy is reviewed by management to determine if existing assumptions need to be updated. In determining the assumptions for calculating workers' compensation reserves, management considers multiple factors including the following:

- Claimant longevity
- Cost trends associated with claimant treatments
- Changes in ceding entity and third party administrator reporting practices
- Changes in environmental factors including legal and regulatory
- Current conditions affecting claim settlements
- Future economic conditions including inflation

We have reserved each claim based upon the accumulation of current claim costs projected through each claimant's life expectancy, and then adjusted for applicable reinsurance arrangements. Management reviews each claim bi-annually to determine if the estimated life-time claim costs have increased and then adjusts the reserve estimate accordingly at that time. We have factored in an estimate of what the potential cost increases could be in our IBNR liability. We have not assumed settlement of the existing claims in calculating the reserve amount, unless it is in the final stages of completion.

Continued increases in claim costs, including medical inflation and new treatments and medications could lead to future adverse development resulting in additional reserve strengthening. Conversely, settlement of existing claims or if injured workers return to work or expire prematurely, could lead to future positive development.

Impairment of Investments

Investments are evaluated pursuant to guidance contained in ASC 320 - *Investments - Debt and Equity Securities* to determine if and when a decline in market value below amortized cost is other-than-temporary. Management makes certain assumptions or judgments in its assessment including but not limited to: our ability and intent to hold the security, quoted market prices, dealer quotes or discounted cash flows, industry factors, financial factors, and issuer specific information such as credit strength. Other-than-temporary impairment in value is recognized in the current period operating results. There were no write downs in the first quarter of fiscal 2018 or 2017.

Income Taxes

AMERCO files a consolidated tax return with all of its legal subsidiaries.

Our tax returns are periodically reviewed by various taxing authorities. The final outcome of these audits may cause changes that could materially impact our financial results.

Fair Values

Fair values of cash equivalents approximate carrying value due to the short period of time to maturity. Fair values of short term investments, investments available-for-sale, long term investments, mortgage loans and notes on real estate, and interest rate swap contracts are based on quoted market prices, dealer quotes or discounted cash flows. Fair values of trade receivables approximate their recorded value.

Our financial instruments that are exposed to concentrations of credit risk consist primarily of temporary cash investments, trade receivables, reinsurance recoverables and notes receivable. Limited credit risk exists on trade receivables due to the diversity of our customer base and their dispersion across broad geographic markets. We place our temporary cash investments with financial institutions and limit the amount of credit exposure to any one financial institution.

We have mortgage receivables, which potentially expose us to credit risk. The portfolio of notes is principally collateralized by self-storage facilities and commercial properties. We have not experienced any material losses related to the notes from individual or groups of notes in any particular industry or geographic area. The estimated fair values were determined using the discounted cash flow method and using interest rates currently offered for similar loans to borrowers with similar credit ratings.

The carrying amount of long term debt and short term borrowings are estimated to approximate fair value as the actual interest rate is consistent with the rate estimated to be currently available for debt of similar term and remaining maturity.

Other investments including short term investments are substantially current or bear reasonable interest rates. As a result, the carrying values of these financial instruments approximate fair value.

Adoption of New Accounting Pronouncements

In October 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-17, *Interests Held through Related Parties That Are under Common Control*, which modifies existing guidance with respect to how a decision maker that holds an indirect interest in a VIE through a common control party determines whether it is the primary beneficiary of the VIE as part of the analysis of whether the VIE would need to be consolidated. Under ASU 2016-17, a decision maker would need to consider only its proportionate indirect interest in the VIE held through a common control party. Previous guidance had required the decision maker to treat the common control party's interest in the VIE as if the decision maker held the interest itself. As a result of ASU 2016-17, in certain cases, previous consolidation conclusions may change. We adopted this standard in the first quarter of fiscal 2018. The adoption of this standard did not have a material impact on our consolidated financial statements.

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*, an updated standard on revenue recognition. The standard creates a five-step model for revenue recognition that requires companies to exercise judgment when considering contract terms and relevant facts and circumstances. The standard requires expanded disclosure surrounding revenue recognition. Early application is not permitted. The standard was initially to be effective for fiscal periods beginning after December 15, 2016 and allows for either full retrospective or modified retrospective adoption. In July 2015, the FASB issued ASU 2015-14, *Revenue from Contracts with Customers, Deferral of Effective Date*, which delays the effective date of ASU 2014-09 by one year to fiscal periods beginning after December 15, 2017. In March 2016, the FASB issued ASU 2016-08, *Revenue from Contracts with Customers, Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*, which is intended to improve the operability and understandability of the implementation guidance on principal versus agent considerations and the effective date is the same as requirements in ASU 2015-14. We do not expect adoption of ASU 2014-09 to have a material effect on our consolidated financial statements.

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments – Overall (subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*. ASU 2016-01 addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. Among other provisions, the new guidance requires the fair value measurement of investments in certain equity securities. For investments without readily determinable fair values, entities have the option to either measure these investments at fair value or at cost adjusted for changes in observable prices minus impairment. All changes in measurement will be recognized in net income. The guidance is effective for interim periods and annual period beginning after December 15, 2017. Early adoption is not permitted, except for certain provisions relating to financial liabilities. We are currently evaluating the impact of the adoption of this standard on our consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases – (Topic 842)*. This update will require lessees to recognize all leases with terms greater than 12 months on their balance sheet as lease liabilities with a corresponding right-of-use asset. This update maintains the dual model for lease accounting, requiring leases to be classified as either operating or finance, with lease classification determined in a manner similar to existing lease guidance. The basic principle is that leases of all types convey the right to direct the use and obtain substantially all the economic benefits of an identified asset, meaning they create an asset and liability for lessees. Lessees will classify leases as either finance leases (comparable to current capital leases) or operating leases (comparable to current operating leases). Costs for a finance lease will be split between amortization and interest expense, with a single lease expense reported for operating leases. This update also will require both qualitative and quantitative disclosures to help financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases. The guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years; however, early adoption is permitted. We have determined that the provisions of ASU 2016-02 may result in an increase in assets to recognize the present value of the lease obligations with a corresponding increase in liabilities. We are still in the process of determining the impact on our consolidated financial statements. For the last ten years, we have reported a discounted estimate of the off-balance sheet lease obligations in our MD&A.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments – Credit Losses (Topic 326)*. This update will require that financial assets measured at amortized cost be presented at the net amount expected to be collected. The allowance for credit losses is a valuation account that is deducted from the amortized cost basis. The income statement reflects the measurement of credit losses for newly recognized financial assets, as well as the expected credit losses during the period. The measurement of expected credit losses is based upon historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. Credit losses relating to available-for-sale debt securities will be recorded through an allowance for credit losses rather than as a direct write-down to the security. This update will become effective for the Company for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. We are currently evaluating the impact of this standard on our consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*. This update addresses eight specific cash flow issues with the objective of reducing the existing diversity in practice. The effective date of ASU 2016-15 is for interim and annual reporting periods beginning after December 15, 2017. Early adoption is permitted. We are currently evaluating the impact of this standard on our consolidated financial statements.

In October 2016, the FASB issued ASU 2016-16, *Income Taxes - Intra-Entity Transfers of Assets Other Than Inventory*, which will require an entity to recognize the income tax consequences of an intra-entity transfer of an asset, other than inventory, when the transfer occurs. This update will become effective for the Company for fiscal years beginning after December 31, 2017, and interim periods within those fiscal years with early adoption permitted. We are currently evaluating the impact of this standard on our consolidated financial statements.

In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows (Topic 230) Restricted Cash*. The new guidance requires that the reconciliation of the beginning-of-period and end-of-period amounts shown in the statements of cash flows include restricted cash and restricted cash equivalents. If restricted cash is presented separately from cash and cash equivalents on the balance sheet, companies will be required to reconcile the amounts presented on the statement of cash flows to the amounts on the balance sheet. Companies will also need to disclose information about the nature of the restrictions. This update will become effective for the Company for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years, with early adoption permitted. We are currently evaluating the impact of this standard on our consolidated financial statements.

In January 2017, the FASB issued ASU 2017-01, *Business Combinations (Topic 805) Clarifying the Definition of a Business*. This update is to clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The definition of a business affects many areas of accounting including acquisitions, disposals, goodwill, and consolidation. This update will become effective for the Company for fiscal years beginning after December 15, 2017, including interim periods within those years. We are currently evaluating the impact of this standard on our consolidated financial statements.

In March 2017, the FASB issued ASU 2017-07, *Compensation - Retirement Benefits: Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*, which changes how companies that sponsor defined benefit pension plans present the related net periodic benefit cost in the income statement. The service cost component of the net periodic benefit cost will continue to be presented in the same income statement line items, however other components of the net periodic benefit cost will be presented as a component of other income and excluded from operating profit. ASU 2017-07 will become effective for public companies during interim and annual reporting periods beginning after December 15, 2017 with early adoption permitted. We are currently evaluating the impact of this standard on our consolidated financial statements.

In March 2017, the FASB issued ASU 2017-08, *Receivables - Nonrefundable Fees and Other Costs (Subtopic 310-20), Premium Amortization on Purchased Callable Debt Securities*. These amendments shorten the amortization period for certain callable debt securities held at a premium. Specifically, the amendments require the premium to be amortized to the earliest call date. The amendments do not require an accounting change for securities held at a discount; the discount continues to be amortized to maturity. The guidance is effective for public business entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted including adoption in an interim period. If an entity early adopts in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes the interim period. The amendments should be applied on a modified retrospective basis, with a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. We are currently evaluating the impact of this standard on our consolidated financial statements.

From time to time, new accounting pronouncements are issued by the FASB or the SEC that are adopted by us as of the specified effective date. Unless otherwise discussed, these ASUs entail technical corrections to existing guidance or affect guidance related to specialized industries or entities and therefore will have minimal, if any, impact on our financial position or results of operations upon adoption.

Results of Operations

AMERCO and Consolidated Entities

Quarter Ended June 30, 2017 compared with the Quarter Ended June 30, 2016

Listed below, on a consolidated basis, are revenues for our major product lines for the first quarter of fiscal 2018 and the first quarter of fiscal 2017:

	Quarter Ended June 30,	
	2017	2016
	(Unaudited)	
	(In thousands)	
Self-moving equipment rentals	\$ 669,858	\$ 646,336
Self-storage revenues	76,718	67,722
Self-moving and self-storage products and service sales	78,911	77,303
Property management fees	6,762	6,604
Life insurance premiums	39,091	40,892
Property and casualty insurance premiums	11,815	11,255
Net investment and interest income	27,217	27,331
Other revenue	47,553	45,748
Consolidated revenue	<u>\$ 957,925</u>	<u>\$ 923,191</u>

Self-moving equipment rental revenues increased \$ 23.5 million during the first quarter of fiscal 2018, compared with the first quarter of fiscal 2017. Revenue gains were the result of increases in both one-way and in-town transactions. Compared to the same period last year, we increased the number of trucks, trailers and towing devices in the rental fleet. Additionally, we continued with the expansion of our independent dealer network as well as Company-owned locations.

Self-storage revenues increased \$ 9.0 million during the first quarter of fiscal 2018, compared with the first quarter of fiscal 2017. The average monthly amount of occupied square feet increased by 8.1 % during the first quarter of fiscal 2018 compared with the same period last year. The growth in revenues and square feet rented comes from a combination of improved rates per square foot, occupancy gains at existing locations and from the addition of new facilities to the portfolio. Over the last twelve months, we added approximately 3.1 million net rentable square feet or a 12.4 % increase, with approximately 0.7 million of that coming on during the first quarter of fiscal 2018.

Sales of self-moving and self-storage products and services increased \$1.6 million during the first quarter of fiscal 2018, compared with the first quarter of fiscal 2017. Increases were recognized in the sales of moving supplies and towing accessories and related installations.

Life insurance premiums decreased \$ 1.8 million during the first quarter of fiscal 2018, compared with the first quarter of fiscal 2017 due primarily to decreased life and Medicare supplement premiums.

Property and casualty insurance premiums increased \$ 0.6 million during the first quarter of fiscal 2018, compared with the first quarter of fiscal 2017 due to an increase in Safetow[®] and Safestor[®] sales which is a reflection of the increased equipment and storage rental transactions.

Other revenue increased \$ 1.8 million during the first quarter of fiscal 2018, compared with the first quarter of fiscal 2017, primarily coming from our U-Box[®] program.

As a result of the items mentioned above, revenues for AMERCO and its consolidated entities were \$ 957.9 million for the first quarter of fiscal 2018, compared with \$ 923.2 million for the first quarter of fiscal 2017.

Listed below are revenues and earnings from operations at each of our operating segments for the first quarter of fiscal 2018 and the first quarter of fiscal 2017. The insurance companies first quarters ended March 31, 2017 and 2016.

Consolidated Results		
Revenues	957,925	923,191
Earnings from operations	229,031	259,557

Total costs and expenses increased \$ 65.3 million during the first quarter of fiscal 2018, compared with the first quarter of fiscal 2017. The Moving and Storage segment accounted for \$64.7 million of the increase. Operating expenses for Moving and Storage increased \$30.4 million, largely from increased personnel costs, equipment maintenance and property tax. Depreciation expense increased \$17.4 million due to the additional amount of equipment in the rental fleet. Gains from the disposal of property, plant and equipment decreased \$13.9 million. Compared with the first quarter of last year, the trucks we are selling had a higher average cost and we are receiving lower average proceeds per unit. Lease expense decreased \$2.8 million as a result of our shift in financing new equipment on the balance sheet versus through operating leases.

As a result of the above mentioned changes in revenues and expenses, earnings from operations decreased to \$ 229.0 million for the first quarter of fiscal 2018, compared with \$ 259.6 million for the first quarter of fiscal 2017.

Interest expense for the first quarter of fiscal 2018 was \$ 30.3 million, compared with \$ 26.4 million for the first quarter of fiscal 2017 primarily due to increased borrowings.

Income tax expense was \$ 72.5 million for the first quarter of fiscal 2018, compared with \$ 86.0 million for the first quarter of fiscal 2017.

As a result of the above mentioned items, earnings available to common shareholders were \$126.2 million for the first quarter of fiscal 2018, compared with \$ 147.2 million for the first quarter of fiscal 2017.

Basic and diluted earnings per share for the first quarter of fiscal 2018 were \$ 6.44, compared with \$ 7.51 for the first quarter of fiscal 2017.

The weighted average common shares outstanding basic and diluted were 19,587,891 for the first quarter of fiscal 2018, compared with 19,586,069 for the first quarter of fiscal 2017.

Moving and Storage

Quarter Ended June 30, 2017 compared with the Quarter Ended June 30, 2016

Listed below are revenues for our major product lines at Moving and Storage for the first quarter of fiscal 2018 and the first quarter of fiscal 2017 :

	Quarter Ended June 30,	
	2017	2016
	(Unaudited)	
	(In thousands)	
Self-moving equipment rentals	\$ 670,698	\$ 647,116
Self-storage revenues	76,718	67,722
Self-moving and self-storage products and service sales	78,911	77,303
Property management fees	6,762	6,604
Net investment and interest income	2,657	2,112
Other revenue	46,781	44,974
Moving and Storage revenue	<u>\$ 882,527</u>	<u>\$ 845,831</u>

Self-moving equipment rental revenues increased \$ 23.6 million during the first quarter of fiscal 2018 , compared with the first quarter of fiscal 2017 . Revenue gains were the result of increases in both one-way and in-town transactions. Compared to the same period last year we increased the number of trucks, trailers and towing devices in the rental fleet. Additionally, we continued with the expansion of our independent dealer network as well as Company-owned locations.

Self-storage revenues increased \$ 9.0 million during the first quarter of fiscal 2018 , compared with the first quarter of fiscal 2017 . The average monthly amount of occupied square feet increased by 8.1 % during the first quarter of fiscal 2018 compared with the same period last year. The growth in revenues and square feet rented comes from a combination of improved rates per square foot, occupancy gains at existing locations and from the addition of new facilities to the portfolio. Over the last twelve months we added approximately 3.1 million net rentable square feet or a 12.4 % increase, with approximately 0.7 million of that coming on during the first quarter of fiscal 2018 .

Sales of self-moving and self-storage products and services increased \$1.6 million during the first quarter of fiscal 2018, compared with the first quarter of fiscal 2017. Increases were recognized in the sales of moving supplies and towing accessories and related installations.

Net investment and interest income increased \$0.5 million during the first quarter of fiscal 2018, compared with the first quarter of fiscal 2017 .

Other revenue increased \$ 1.8 million during the first quarter of fiscal 2018 , compared with the first quarter of fiscal 2017 caused primarily by the U-Box[®] program.

We own and manage self-storage facilities. Self-storage revenues reported in the consolidated financial statements represent Company-owned locations only. Self-storage data for our owned storage locations follows:

	Quarter Ended June 30,	
	2017	2016
	(Unaudited)	
	(In thousands, except occupancy rate)	
Room count as of June 30	328	287
Square footage as of June 30	28,044	24,941
Average monthly number of rooms occupied	237	219
Average monthly occupancy rate based on room count	73.0%	77.4%
Average monthly square footage occupied	21,383	19,791

Over the last twelve months we added approximately 3.1 million net rentable square feet of new storage to the system. This was a mix of existing storage locations we acquired and new development. On average, the occupancy rate of this new capacity on the date it was added was 11.1%.

Total costs and expenses increased \$ 64.7 million during the first quarter of fiscal 2018, compared with the first quarter of fiscal 2017. Operating expenses increased \$ 30.4 million largely from increased personnel costs, equipment maintenance and property tax. Depreciation expense increased \$ 17.4 million due to the additional amount of equipment in the rental fleet. Gains from the disposal of property, plant and equipment decreased \$13.9 million. Compared with the first quarter of last year, the trucks we are selling had a higher average cost and we are receiving lower average proceeds per unit. Lease expense decreased \$2.8 million as a result of our shift in financing new equipment on the balance sheet versus through operating leases.

As a result of the above mentioned changes in revenues and expenses, earnings from operations for Moving and Storage before consolidation of the equity in the earnings of the insurance subsidiaries, decreased to \$220.5 million for the first quarter of fiscal 2018, compared with \$ 248.5 million for the first quarter of fiscal 2017.

Equity in the earnings of AMERCO's insurance subsidiaries was \$ 5.8 million for the first quarter of fiscal 2018, compared with \$7.6 million for the first quarter of fiscal 2017.

As a result of the above mentioned changes in revenues and expenses, earnings from operations decreased to \$ 226.3 million for the first quarter of fiscal 2018, compared with \$ 256.1 million for the first quarter of fiscal 2017.

Property and Casualty Insurance

Quarter Ended March 31, 2017 compared with the Quarter Ended March 31, 2016

Net premiums were \$11.8 million and \$11.3 million for the quarters ended March 31, 2017 and 2016, respectively. A significant portion of Repwest's premiums are from policies sold in conjunction with U-Haul rental transactions. The premium increase corresponded with the increased moving and storage transactions at U-Haul during the same period.

Net investment and interest income was \$4.3 million and \$5.6 million for quarters ended March 31, 2017 and 2016, respectively. The main driver of the decrease in net investment income was the decrease in net realized gains to \$0.6 million in 2017 from \$2.1 million in 2016.

Net operating expenses were \$8.2 million and \$6.3 million for the quarters ended March 31, 2017 and 2016, respectively.

Benefits and losses incurred were \$2.4 million and \$3.1 million for the quarters ended March 31, 2017 and 2016, respectively, as a result of a \$0.7 million improvement in loss experience associated with the moving and storage related insurance business.

As a result of the above mentioned changes in revenues and expenses, pretax earnings from operations were \$5.4 million and \$7.5 million for the three months ended March 31, 2017 and 2016, respectively.

Life Insurance

Quarter Ended March 31, 2017 compared with the Quarter Ended March 31, 2016

Net premiums were \$39.1 million and \$40.9 million for the quarters ended March 31, 2017 and 2016, respectively. Medicare Supplement premiums decreased by \$1.4 million due to the reduction in new sales and declined premiums on the run off business partially offset by rate increases on renewal premiums. A remaining decrease of \$0.4 million was from reduced supplemental contract considerations and life insurance premiums. Deferred annuity deposits were \$95.4 million or \$39.7 million above prior year and are accounted for on the balance sheet as deposits rather than premiums.

Net investment income was \$ 20.7 million and \$ 20.0 million for the quarters ended March 31, 2017 and 2016, respectively. Realized gains from our fixed maturities portfolio increased by \$1.2 million compared with the prior year quarter while investment income decreased by \$0.5 million. The prior year quarter investment income included an additional \$4.1 million gain from our mortgage loan portfolio compared with \$0.4 million in the current year quarter.

Net operating expenses were \$ 5.6 million and \$6.0 million for the quarters ended March 31 , 201 7 and 201 6, respectively. The decrease was primarily due to a reduction in commission expense from decreased Medicare supplement premiums.

Benefits and losses incurred were \$ 45.3 million and \$ 43.9 million for the quarters ended March 31 , 201 7 and 201 6 , respectively . The increase was primarily due to a \$2.6 million increase in interest credited to policyholders as a result of the increased annuity deposit base along with \$0.9 million from life insurance benefits. Partially offsetting this was a \$1.8 million decrease in Medicare supplement benefits from an improved benefit to premium ratio and a \$0.3 million decrease in supplemental contract and immediate annuity payouts.

Amortization of deferred acquisition costs ("DAC") , sales inducement asset ("SIA") and the value of business acquired ("VOBA") was \$ 6.3 million and \$ 7.9 million for the quarters ended March 31 , 201 7 and 201 6 , respectively . The decrease was primarily due to an additional \$2.5 million amortization in the first quarter of the prior year quarter generated by added gains on mortgage loan investments.

As a result of the above mentioned changes in revenues and expenses, pretax earnings from operations were \$ 3.4 million and \$ 3.9 million for the quarters ended March 31 , 201 7 and 201 6 , respectively.

Liquidity and Capital Resources

We believe our current capital structure is a positive factor that will enable us to pursue our operational plans and goals , and provide us with sufficient liquidity for the foreseeable future. There are many factors which could affect our liquidity, including some which are beyond our control, and there is no assurance that future cash flows and liquidity resources will be sufficient to meet our outstanding debt obligations and our other future capital needs.

At June 30, 2017 , cash and cash equivalents totaled \$ 803.5 million, compared with \$ 697.8 million at March 31, 201 7 . The assets of our insurance subsidiaries are generally unavailable to fulfill the obligations of non-insurance operations (Moving and Storage). As of June 30, 2017 (or as otherwise indicated), cash and cash equivalents, other financial assets (receivables, short-term investments, other investments, fixed maturities, and related party assets) and debt obligations of each operating segment were:

	Moving & Storage	Property and Casualty Insurance (a)	Life Insurance (a)
		(Unaudited)	
		(In thousands)	
Cash and cash equivalents	\$ 748,823	\$ 8,291	\$ 46,408
Other financial assets	166,604	437,225	1,833,417
Debt obligations	3,386,851	—	—

(a) As of March 31, 2017

At June 30, 2017, Moving and Storage had additional cash available under existing credit facilities of \$ 77.0 million .

Net cash provided by operating activities increased \$ 35.6 million in the first quarter of fiscal 2018 compared with the first quarter of fiscal 201 7.

Net cash used in investing activities increased \$ 64.8 million in the first quarter of fiscal 201 8, compared with the first quarter of fiscal 201 7 . Purchases of property, plant and equipment, which are reported net of cash from sales and lease-back transactions, increased \$ 43.0 million. Cash from the sales of property, plant and equipment decreased \$ 4.9 million largely due to reduced fleet sales. For our insurance subsidiaries, net cash used in investing activities increased \$20.9 million due to additional investment purchases.

Net cash provided by financing activities increased \$80.5 million in the first quarter of fiscal 2018, as compared with the first quarter of fiscal 2017. This was due to a combination of increased debt and capital lease repayments of \$35.6 million, an increase in cash from borrowings of \$52.0 million and an increase in net annuity deposits from Life Insurance of \$41.1 million, a \$19.6 million dividend payment in the first quarter of fiscal 2017 that did not recur in the first quarter of fiscal 2018.

Liquidity and Capital Resources and Requirements of Our Operating Segments

Moving and Storage

To meet the needs of our customers, U-Haul maintains a large fleet of rental equipment. Capital expenditures have primarily consisted of new rental equipment acquisitions and the buyouts of existing fleet from leases. The capital to fund these expenditures has historically been obtained internally from operations and the sale of used equipment and externally from debt and lease financing. In the future, we anticipate that our internally generated funds will be used to service the existing debt and fund operations. U-Haul estimates that during fiscal 2018, we will reinvest in our truck and trailer rental fleet approximately \$440 million, net of equipment sales excluding any lease buyouts. Through the first quarter of fiscal 2018, we have invested, net of equipment sales, \$256 million before any lease buyouts in our truck and trailer fleet of this projected amount. Fleet investments in fiscal 2018 and beyond will be dependent upon several factors including availability of capital, the truck rental environment and the used-truck sales market. We anticipate that the fiscal 2018 investments will be funded largely through debt financing, external lease financing and cash from operations. Management considers several factors including cost and tax consequences when selecting a method to fund capital expenditures. Our allocation between debt and lease financing can change from year to year based upon financial market conditions which may alter the cost or availability of financing options.

Real Estate has traditionally financed the acquisition of self-storage properties to support U-Haul's growth through debt financing and funds from operations and sales. Our plan for the expansion of owned storage properties includes the acquisition of existing self-storage locations from third parties, the acquisition and development of bare land, and the acquisition and redevelopment of existing buildings not currently used for self-storage. We are funding these development projects through construction loans and internally generated funds. For the first quarter of fiscal 2018, we invested \$142.5 million in real estate acquisitions, new construction and renovation and major repair. For fiscal 2018, the timing of new projects will be dependent upon several factors including the entitlement process, availability of capital, weather, and the identification and successful acquisition of target properties. U-Haul's growth plan in self-storage also includes the expansion of the U-Haul Storage Affiliate program, which does not require significant capital.

Net capital expenditures (purchases of property, plant and equipment less proceeds from the sale of property, plant and equipment and lease proceeds) were \$337.9 million and \$290.1 million for the first quarter of fiscal 2018 and 2017, respectively. The components of our net capital expenditures are provided in the following table:

	Quarter Ended June 30,	
	2017	2016
	(Unaudited)	
	(In thousands)	
Purchases of rental equipment	\$ 396,068	\$ 418,975
Equipment lease buyouts	—	7,864
Purchases of real estate, construction and renovations	142,499	123,531
Other capital expenditures	29,083	30,289
Gross capital expenditures	567,650	580,659
Less: Lease proceeds	(87,391)	(143,372)
Less: Sales of property, plant and equipment	(142,343)	(147,196)
Net capital expenditures	337,916	290,091

Moving and Storage continues to hold significant cash and has access to additional liquidity. Management may invest these funds in our existing operations, expand our product lines or pursue external opportunities in the self-moving and storage market place or reduce existing indebtedness where possible.

Property and Casualty Insurance

State insurance regulations restrict the amount of dividends that can be paid to stockholders of insurance companies. As a result, Property and Casualty Insurance's assets are generally not available to satisfy the claims of AMERCO or its legal subsidiaries.

We believe that stockholder's equity at Property and Casualty remains sufficient and we do not believe that its ability to pay ordinary dividends to AMERCO will be restricted per state regulations.

Property and Casualty's stockholder's equity was \$ 186.4 million and \$ 180.9 million at March 31, 2017 and December 31, 2016, respectively. The increase resulted from net earnings of \$ 3.6 million and an increase in other comprehensive income of \$ 1.9 million. Property and Casualty Insurance does not use debt or equity issues to increase capital and therefore has no direct exposure to capital market conditions other than through its investment portfolio.

Life Insurance

Life Insurance manages its financial assets to meet policyholder and other obligations including investment contract withdrawals and deposits. Life Insurance's net deposits for the quarter ended March 31, 2017 were \$ 101.2 million. State insurance regulations restrict the amount of dividends that can be paid to stockholders of insurance companies. As a result, Life Insurance's funds are generally not available to satisfy the claims of AMERCO or its legal subsidiaries.

Life Insurance's stockholder's equity was \$ 303.4 million and \$ 296.1 million at March 31, 2017 and December 31, 2016, respectively. The increase resulted from net earnings of \$ 2.2 million and an increase in other comprehensive income of \$ 5.1 million primarily due to the effect of interest rate changes on the fixed maturity portion of the investment portfolio. Life Insurance has not historically used debt or equity issues to increase capital and therefore has not had any significant direct exposure to capital market conditions other than through its investment portfolio. However, as of March 31, 2017, Oxford had outstanding deposits of \$ 60.0 million through their membership in the FHLB system. For a more detailed discussion of this deposit, please see Note 4, Borrowings, of the Notes to Condensed Consolidated Financial Statements.

Cash Provided from Operating Activities by Operating Segments

Moving and Storage

Net cash provided from operating activities were \$ 372.6 million and \$348.8 million for the first quarter of fiscal 2018 and 2017, respectively.

Property and Casualty Insurance

Net cash provided by operating activities were \$2.7 million and \$3.2 million for the first quarters ended March 31, 2017 and 2016, respectively.

Property and Casualty Insurance's cash and cash equivalents and short-term investment portfolios amounted to \$ 11.6 million and \$ 20.7 million at March 31, 2017 and December 31, 2016, respectively. These balances reflect funds in transition from maturity proceeds to long term investments. Management believes this level of liquid assets, combined with budgeted cash flow, is adequate to meet foreseeable cash needs. Capital and operating budgets allow Property and Casualty Insurance to schedule cash needs in accordance with investment and underwriting proceeds.

Life Insurance

Net cash provided by operating activities were \$ 21.3 million and \$ 9.1 million for the first quarter ended March 31, 2017 and 2016, respectively. The increase in operating cash flows was primarily due to timing of settlement of payables offset by a decrease resulting from a federal income tax payment.

In addition to cash flows from operating activities and financing activities, a substantial amount of liquid funds are available through Life Insurance's short-term portfolio and its membership in the FHLB. At March 31, 2017 and December 31, 2016, cash and cash equivalents and short-term investments amounted to \$ 50.2 million and \$ 20.6 million, respectively. Management believes that the overall sources of liquidity are adequate to meet foreseeable cash needs.

Liquidity and Capital Resources - Summary

We believe we have the financial resources needed to meet our business plans including our working capital needs. We continue to hold significant cash and have access to existing credit facilities and additional liquidity to meet our anticipated capital expenditure requirements for investment in our rental fleet, rental equipment and storage acquisitions and build outs.

Our borrowing strategy is primarily focused on asset-backed financing and rental equipment leases. As part of this strategy, we seek to ladder maturities and hedge floating rate loans through the use of interest rate swaps. While each of these loans typically contains provisions governing the amount that can be borrowed in relation to specific assets, the overall structure is flexible with no limits on overall Company borrowings. Management believes it has adequate liquidity between cash and cash equivalents and unused borrowing capacity in existing credit facilities to meet the current and expected needs of the Company over the next several years. At June 30, 2017, we had available borrowing capacity under existing credit facilities of \$ 77.0 million. It is possible that circumstances beyond our control could alter the ability of the financial institutions to lend us the unused lines of credit. We believe that there are additional opportunities for leverage in our existing capital structure. For a more detailed discussion of our long term debt and borrowing capacity, please see Note 4, Borrowings, of the Notes to Condensed Consolidated Financial Statements.

Fair Value of Financial Instruments

Certain assets and liabilities are recorded at fair value on the condensed consolidated balance sheets and are measured and classified based upon a three tiered approach to valuation. ASC 820 requires that financial assets and liabilities recorded at fair value be classified and disclosed in a Level 1, Level 2 or Level 3 category. For more information, please see Note 14, Fair Value Measurements, of the Notes to Condensed Consolidated Financial Statements.

The available-for-sale securities held by us are recorded at fair value. These values are determined primarily from actively traded markets where prices are based either on direct market quotes or observed transactions. Liquidity is a factor considered during the determination of the fair value of these securities. Market price quotes may not be readily available for certain securities or the market for them has slowed or ceased. In situations where the market is determined to be illiquid, fair value is determined based upon limited available information and other factors including expected cash flows. At June 30, 2017, we had \$ 0.3 million of available-for-sale assets classified in Level 3.

The interest rate swaps held by us as hedges against interest rate risk for our variable rate debt are recorded at fair value. These values are determined using pricing valuation models which include broker quotes for which significant inputs are observable. They include adjustments for counterparty credit quality and other deal-specific factors, where appropriate and are classified as Level 2.

Disclosures about Contractual Obligations and Commercial Commitments

Our estimates as to future contractual obligations have not materially changed from the disclosure included under the subheading Disclosures about Contractual Obligations and Commercial Commitments in Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, of our Annual Report on Form 10-K for the fiscal year ended March 31, 2017.

Off-Balance Sheet Arrangements

We use off-balance sheet arrangements in situations where management believes that the economics and sound business principles warrant their use.

We utilize operating leases for certain rental equipment and facilities with terms expiring substantially through 2019. In the event of a shortfall in proceeds from the sales of the underlying rental equipment assets, we have guaranteed \$16.5 million of residual values at June 30, 2017 for these assets at the end of their respective lease terms. We have been leasing rental equipment since 1987. To date, we have not experienced residual value shortfalls related to these leasing arrangements. Using the average cost of fleet related debt as the discount rate, the present value of our minimum lease payments and residual value guarantees were \$ 33.8 million at June 30, 2017.

Historically, we have used off-balance sheet arrangements in connection with the expansion of our self-storage business. For more information please see Note 10, Related Party Transactions, of the Notes to Condensed Consolidated Financial Statements. These arrangements were primarily used when our overall borrowing structure was more limited. We do not face similar limitations currently and off-balance sheet arrangements have not been utilized in our self-storage expansion in recent years. In the future, we will continue to identify and consider off-balance sheet opportunities to the extent such arrangements would be economically advantageous to us and our stockholders.

We currently manage the self-storage properties owned or leased by SAC Holdings, Mercury, 4 SAC, 5 SAC, Galaxy, and Private Mini pursuant to a standard form of management agreement, under which we receive a management fee of between 4% and 10% of the gross receipts plus reimbursement for certain expenses. We received management fees, exclusive of reimbursed expenses, of \$ 10.0 million and \$8.7 million from the above mentioned entities during the first quarter of fiscal 2018 and 2017, respectively. This management fee is consistent with the fee received for other properties we previously managed for third parties. SAC Holdings, 4 SAC, 5 SAC, Galaxy and Private Mini are substantially controlled by Blackwater. Blackwater is wholly-owned by Willow Grove Holding LP, which is owned by Mark V. Shoen (a significant shareholder), and various trusts associated with Edward J. Shoen and Mark V. Shoen. Mark V. Shoen controls the general partner of Mercury. The limited partner interests of Mercury are indirectly owned by Mark V. Shoen, James P. Shoen (a significant shareholder) and a trust benefiting the children and grandchild of Edward J. Shoen (our Chairman of the Board, President and a significant shareholder).

We lease space for marketing company offices, vehicle repair shops and hitch installation centers from subsidiaries of SAC Holdings, 5 SAC and Galaxy. Total lease payments pursuant to such leases were \$ 0.7 million in the first quarters of both fiscal 2018 and 2017, respectively. The terms of the leases are similar to the terms of leases for other properties owned by unrelated parties that are leased to us.

At June 30, 2017, subsidiaries of SAC Holdings, 4 SAC, 5 SAC, Galaxy and Private Mini acted as U-Haul independent dealers. The financial and other terms of the dealership contracts with the aforementioned companies and their subsidiaries are substantially identical to the terms of those with our other independent dealers whereby commissions are paid by us based on equipment rental revenues. We paid the above mentioned entities \$ 15.9 million and \$ 15.8 million in commissions pursuant to such dealership contracts during the first quarter of fiscal 2018 and 2017, respectively.

During the first quarter of fiscal 2018, a subsidiary of ours held a junior unsecured note of SAC Holdings. Substantially all of the equity interest of SAC Holdings is controlled by Blackwater. We do not have an equity ownership interest in SAC Holdings. We recorded interest income of \$ 1.2 million and \$1.2 million, and received cash interest payments of \$1.1 million and \$1.1 million, from SAC Holdings during the first quarter of fiscal 2018 and 2017, respectively. The largest aggregate amount of the note receivable outstanding during the first quarter of fiscal 2018 was \$ 48.1 million and the aggregate note receivable balance at June 30, 2017 was \$ 47.8 million. In accordance with the terms of this note, SAC Holdings may prepay the note without penalty or premium at any time. We are currently negotiating to extend this note. The scheduled maturity of this note is 2017.

These agreements along with a note with subsidiaries of SAC Holdings, 4 SAC, 5 SAC, Galaxy and Private Mini, excluding Dealer Agreements, provided revenues of \$ 7.4 million, expenses of \$ 0.7 million and cash flows of \$ 6.6 million during the first quarter of fiscal 2018. Revenues and commission expenses related to the Dealer Agreements were \$ 72.8 million and \$ 15.9 million, respectively during the first quarter of fiscal 2018.

Fiscal 2018 Outlook

We will continue to focus our attention on increasing transaction volume and improving pricing, product and utilization for self-moving equipment rentals. Maintaining an adequate level of new investment in our truck fleet is an important component of our plan to meet our operational goals. Revenue in the U-Move® program could be adversely impacted should we fail to execute in any of these areas. Even if we execute our plans, we could see declines in revenues primarily due to unforeseen events including adverse economic conditions or heightened competition that is beyond our control.

With respect to our storage business, we have added new locations and expanded at existing locations. In fiscal 2018, we are actively looking to acquire new locations, complete current projects and increase occupancy in our existing portfolio of locations. New projects and acquisitions will be considered and pursued if they fit our long term plans and meet our financial objectives. We will continue to invest capital and resources in the U-Box[®] program throughout fiscal 2018.

Property and Casualty Insurance will continue to provide loss adjusting and claims handling for U-Haul and underwrite components of the Safemove[®], Safetow[®], Safemove Plus[®], Safestor[®] and Safestor Mobile[®] protection packages to U-Haul customers.

Life Insurance is pursuing its goal of expanding its presence in the senior market through the sales of its Medicare supplement, life and annuity policies. This strategy includes growing its agency force, expanding its new product offerings, and pursuing business acquisition opportunities.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to financial market risks, including changes in interest rates and currency exchange rates. To mitigate these risks, we may utilize derivative financial instruments, among other strategies. We do not use derivative financial instruments for speculative purposes.

Interest Rate Risk

The exposure to market risk for changes in interest rates relates primarily to our variable rate debt obligations and one variable rate operating lease. We have used interest rate swap agreements and forward swaps to reduce our exposure to changes in interest rates. We enter into these arrangements with counterparties that are significant financial institutions with whom we generally have other financial arrangements. We are exposed to credit risk should these counterparties not be able to perform on their obligations. Following is a summary of our interest rate swap agreements at June 30, 2017:

	Notional Amount	Fair Value	Effective Date	Expiration Date	Fixed Rate	Floating Rate
	(Unaudited) (In thousands)					
\$	127,778	\$ (3,389)	8/18/2006	8/10/2018	5.43%	1 Month LIBOR
	4,563 (a)	(2)	8/15/2010	7/15/2017	2.15%	1 Month LIBOR
	8,750 (a)	(77)	6/1/2011	6/1/2018	2.38%	1 Month LIBOR
	17,833 (a)	(88)	8/15/2011	8/15/2018	1.86%	1 Month LIBOR
	7,050 (a)	(29)	9/12/2011	9/10/2018	1.75%	1 Month LIBOR
	7,388 (b)	5	3/28/2012	3/28/2019	1.42%	1 Month LIBOR
	9,792	29	4/16/2012	4/1/2019	1.28%	1 Month LIBOR
	18,675	198	1/15/2013	12/15/2019	1.07%	1 Month LIBOR

(a) forward swap

(b) operating lease

As of June 30, 2017, we had \$740.1 million of variable rate debt obligations and \$7.4 million of a variable rate operating lease. If LIBOR were to increase 100 basis points, the increase in interest expense on the variable rate debt would decrease future earnings and cash flows by \$5.5 million annually (after consideration of the effect of the above derivative contracts). Certain senior mortgages have an anticipated repayment date and a maturity date. If these senior mortgages are not repaid by the anticipated repayment date the interest rate on these mortgages would increase from the current fixed rate. We are using the anticipated repayment date for our maturity schedule.

Additionally, our insurance subsidiaries' fixed income investment portfolios expose us to interest rate risk. This interest rate risk is the price sensitivity of a fixed income security to changes in interest rates. As part of our insurance companies' asset and liability management, actuaries estimate the cash flow patterns of our existing liabilities to determine their duration. These outcomes are compared to the characteristics of the assets that are currently supporting these liabilities assisting management in determining an asset allocation strategy for future investments that management believes will mitigate the overall effect of interest rates.

Foreign Currency Exchange Rate Risk

The exposure to market risk for changes in foreign currency exchange rates relates primarily to our Canadian business. Approximately 4.7% and 4.6% of our revenue was generated in Canada during the first quarter of fiscal 2018 and 2017, respectively. The result of a 10.0% change in the value of the U.S. dollar relative to the Canadian dollar would not be material to net income. We typically do not hedge any foreign currency risk since the exposure is not considered material.

Cautionary Statements Regarding Forward-Looking Statements

This Quarterly Report contains "forward-looking statements" regarding future events and our future results of operations. We may make additional written or oral forward-looking statements from time to time in filings with the SEC or otherwise. We believe such forward-looking statements are within the meaning of the safe-harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Such statements may include, but are not limited to, estimates of capital expenditures, plans for future operations, products or services, financing needs and plans, our perceptions of our legal positions and anticipated outcomes of government investigations and pending litigation against us, liquidity, goals and strategies, plans for new business, storage occupancy, growth rate assumptions, pricing, costs, and access to capital and leasing markets, the impact of our compliance with environmental laws and cleanup costs, our used vehicle disposition strategy, the sources and availability of funds for our rental equipment and self-storage expansion and replacement strategies and plans, our plan to expand our U-Haul storage affiliate program, that additional leverage can be supported by our operations and business, the availability of alternative vehicle manufacturers, our estimates of the residual values of our equipment fleet, our plans with respect to off-balance sheet arrangements, our plans to continue to invest in the U-Box[®] program, the impact of interest rate and foreign currency exchange rate changes on our operations, the sufficiency of our capital resources and the sufficiency of capital of our insurance subsidiaries as well as assumptions relating to the foregoing. The words "believe," "expect," "anticipate," "plan," "may," "will," "could," "estimate," "project" and similar expressions identify forward-looking statements, which speak only as of the date the statement was made.

Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. Factors that could significantly affect results include, without limitation, the degree and nature of our competition; our leverage; general economic conditions; fluctuations in our costs to maintain and update our fleet and facilities; the limited number of manufacturers that supply our rental trucks; our ability to effectively hedge our variable interest rate debt; that we are controlled by a small contingent of stockholders; risks relating to our note receivable from SAC Holdings; fluctuations in quarterly results and seasonality; changes in, and our compliance with, government regulations, particularly environmental regulations and regulations relating to motor carrier operations; our reliance on our third party dealer network; liability claims relating to our rental vehicles and equipment; our ability to attract, motivate and retain key employees; reliance on our automated systems and the internet; our credit ratings; our ability to recover under reinsurance arrangements and other factors described in our Annual Report on Form 10-K in Item 1A, Risk Factors, and in this Quarterly Report or the other documents we file with the SEC. The above factors, the following disclosures, as well as other statements in this Quarterly Report and in the Notes to Condensed Consolidated Financial Statements, could contribute to or cause such risks or uncertainties, or could cause our stock price to fluctuate dramatically. Consequently, the forward-looking statements should not be regarded as representations or warranties by us that such matters will be realized. We assume no obligation to update or revise any of the forward-looking statements, whether in response to new information, unforeseen events, changed circumstances or otherwise.

Item 4. Controls and Procedures

Attached as exhibits to this Quarterly Report are certifications of our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), which are required in accordance with Rule 13a-14 of the Exchange Act. This "Controls and Procedures" section includes information concerning the controls and procedures evaluation referred to in the certifications and it should be read in conjunction with the certifications for a more complete understanding of the topics presented in the section titled Evaluation of Disclosure Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of the CEO and C F O, conducted an evaluation of the effectiveness of the design and operation of our "disclosure controls and procedures" (as such term is defined in the Exchange Act Rules 13a- 15(e) and 15d-15(e)) ("Disclosure Controls") as of the end of the most recently completed fiscal quarter covered by this Quarterly Report . Our Disclosure Controls are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act, such as this Quarterly Report , is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Our Disclosure Controls are also designed to ensure that such information is accumulated and communicated to our management, including our CEO and C F O, as appropriate to allow timely decisions regarding required disclosure. Based upon the controls evaluation, our CEO and C F O have concluded that as of the end of the period covered by this Quarterly Report , our Disclosure Controls were effective at a reasonable assurance level related to the above stated design purposes.

Inherent Limitations on the Effectiveness of Controls

Our management, including our CEO and C F O, does not expect that our Disclosure Controls or our internal control over financial reporting will prevent or detect all error and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons , by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

Changes in Internal Control Over Financial Reporting

There have not been any changes in our internal control over financial reporting as such term is defined in Exchange Act Rules 13a-15(f) and 15d- 15(f) during the most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Rule 13a-14(a)/15d-14(a) Certification

I, Edward J. Shoen, certify that:

1. I have reviewed this quarterly report on Form 10-Q of AMERCO;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;
4. The Registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
 - A. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - B. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - C. Evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - D. Disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
5. The Registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
 - A. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
 - B. Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.
