Item 8.01. Other Events.

AMERCO (the "Company") has been made aware of a data security incident involving U-Haul International, Inc.'s ("U-Haul") information

technology network. U-Haul detected a compromise of two unique passwords for accessing U-Haul's contract search tool. U-Haul took immediate steps to contain the incident. Upon identifying the compromised passwords, U-Haul promptly enhanced its security measures to prevent any further unauthorized access and began an investigation. Cybersecurity experts were engaged to investigate the impact of the incident and are implementing additional security safeguards and controls to prevent further such incidents. None of U-Haul's financial, payment processing or email systems were involved.

On August 1, 2022, the investigation by U-Haul into the incident determined certain customer contracts, including names, dates of birth and driver's license numbers of some customers, were accessed using the compromised contract search tool between November 5, 2021 and April 5, 2022. U-Haul is taking steps to notify impacted customers, in addition to the appropriate governmental authorities. Impacted customers will be offered identity protection services at no charge.

The Company does not believe that the incident will have a material impact on its business or financial condition.

Security, in all forms, remains a critical priority at AMERCO, and the Company will continue to take all appropriate measures to safeguard the integrity of its information technology infrastructure.

These statements include, but are not limited to, express or implied forward-looking statements relating to the Company's expectations regarding the potential impact to its information technology infrastructure and on its financial performance and business operations, including any related costs, fines or lawsuits, and its ability to contain the incident, continue ongoing operations and safeguard the integrity of its information technology infrastructure, data, and employee, customer and vendor information from similar future incidents. These statements are neither promises nor guarantees, but are subject to a variety of risks

and uncertainties, many of which are beyond the Company's or U-Haul's control, which could cause actual results to differ materially from those contemplated in these forward-looking statements. Factors that could cause actual results to differ materially from those expressed or implied include the ongoing assessment of the data security incident, legal, reputational and financial risks resulting from this and/or additional cybersecurity incidents, the effectiveness of the additional security safeguards, and the other factors discussed in the Company's Annual Report on Form 10-K for the year ended March 31, 2022 and Quarterly Report on Form 10-Q for the quarter ended June 30, 2022.
